

Position Title:	Analytical Development Intern
Department:	Pharmaceutical Sciences

We are a team of experts from multiple disciplines who have come together driven to bring hope and life-changing therapies to patients and their families.

Responsibilities:

- Support the ongoing stability program through data collection, statistical analysis, and result tabulation in preparation of regulatory filings.
- Manage the reference standard control program to monitor the reproducibility and consistency of analytical methods by leveraging historical data for all programs.
- Contribute to the overall drug development process by assisting with the validation process of analytical assays that are used to assess the purity, potency, and safety of STAR-0215 and STAR-0310.
- Work closely with other functions, including Drug Substance, Drug Product, Device, and Supply Chain.
- Attend weekly department meetings and collaborate with team members.
- Present data and findings to cross-functional teams and company-wide meetings as appropriate.
- Opportunities to shadow and learn from department functional leaders.

Qualifications:

- Current undergraduate student, preferably majoring in a scientific discipline (e.g., chemistry, biochemistry, biology, chemical engineering).
- Strong interest in analytical development and/or biologics drug development.
- Outstanding organizational skills and attention to detail.
- Experienced with the MS Office suite.
- Excellent written and verbal communication skills. Team-oriented, progressive thinker with a can-do attitude who enjoys participating in an innovative and creative work environment.

Astria's Commitment:

At Astria, we are committed to building a diverse team where every Astrian is empowered to bring their authentic self to work. We embrace a patient-first, people-always culture in which all Astrians and our collaborators have a sense of belonging and receive the support they need to thrive. We invest in our people through our words, our actions, and our values. We are working to develop and implement initiatives that promote diversity, equity, and inclusion throughout the organization and foster a culture

75 State Street, Suite 1400, Boston MA 02109 USA

of openness, respect, and collaboration, where all voices are heard, and everyone is valued for their unique perspectives and contribution.

People are our greatest asset, and only with a diverse team can Astria shine brighter. Together we can bring our passion and compassion to the work of delivering life-changing therapies to patients, families and communities.
